NEPA Task Force Web Site Reports a New Feedback Entry:

Name: Daniel MacKinnon

Email Address: today2314@hotmail.com

Comments: Any threat to any policy/law undertaken by this administration is tainted with Deregulation, which is tantamount to allowing its allies in big oil/business/logging free reign of our national lands and, in effect freedom.

I

wholly oppose this type of reaction to regulatory measures that are put in place

to make sure that things are done with a moderate growth.
